

CSW12 New Variants

David Sutton

Introduction

This document seeks to tabulate all new variants being introduced in CSW12: that is to say, new words which are simply variant forms of words already existing in CSW7. This is done in the hope that it will ease at least marginally the task of learning the new words by relating them, where possible, to what may already be familiar.

I shall be glad to know of any omissions.

Version History

20/5/11	1.0	First release
---------	-----	---------------
