

# **CSW12 Impacts**

**David Sutton**

## **Introduction**

This document attempts to provide a complete analysis of the impact of CSW12 changes on existing related CSW7 words. It is hoped that it will also serve to answer some of the questions that may arise as to why particular decisions were made.

Note that you will not find here words that are 'clean additions' i.e. new self-contained words or sets of words with no implications for existing words, such as BLINGY/BLINGIER/BLINGIEST. Nor will you find 'clean deletions' such as PURIM/PURIMS. And you will not find impacts where the words concerned are unrelated e.g. HAS now takes an -S to form HASS, but this is happenstance.

General points worth noting are:

- a large number of Maori words that were added in CSW7 and which (rather tiresomely) did not take an -S now do take an -S
- a number of adjectives, mainly ones ending in -Y, that previously did not have comparative and superlative forms now do
- a number of interjections which previously took an -S no longer do
- a number of -ING words that were previously participles only have now acquired nounal status and so take -S (so e.g. COSTINGS and GRADINGS are good at last!)

## **Version History**

25/4/11	1.0	First release
26/4/11	1.1	Corrected KOOOKY to KOOKY; corrected transposition of HUPPAH and HUPIRO; removed a number of Maori words included by mistake that in fact already took an S
28/4/11	1.2	Added YABA which now takes an -S. Corrected THANKIT to THANK in column 1
02/5/11	1.3	Corrected CAPPUCINI to CAPPUCCINI. Corrected entries for RERAILING and REREMAI. Rectified a number of omissions.
